Rolling Element Diameter:

Between 0.3745 inches and 0.3755 inches

Criticality Code Justification:

Zzzy

Material:

Steel comp 440c

Material Specification:

66 federal standard single material response

Style Designator:

Ball

Reference Number Differentiating Characteristics:

As differentiated by cleaning in accordance with mil-p-52211/ce/

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
