Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Load Direction:

Angular

Bore Shape:

Straight

Contact Angle:

25.0 degrees

Special Features:

Break out on od of inner ring, 0.1000 in. Radius on od corner opposite extended side of inner ring

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
