Overall Width:

Between 0.9950 inches and 1.0000 inches

Bore Diameter:

127.0 millimeters

Overall Outside Diameter:

Between 6.9980 inches and 6.9985 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0045 inches radial and 0.0055 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

Retainer to be silver plated, ams 2412

Style Designator:

252a single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
