Overall Width:

Between 0.7450 inches and 0.7500 inches

Bore Diameter:

Between 9.99886 inches and 10.0000 inches

Overall Outside Diameter:

Between 11.4986 inches and 11.5000 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Load Direction:

Radial

Bore Shape:

Straight

Internal Clearance:

0.0028 inches radial and 0.0038 inches radial

Material:

Steel outer ring

Style Designator:

40a 4 point ball contact, solid inner and outer rings, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
