Overall Width:

Between 1.0874 inches and 1.1024 inches

Bore Diameter:

Between 1.3777 inches and 1.3780 inches

Overall Outside Diameter:

Between 1.4405 inches and 1.4409 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Angular

Bearing Preload Designation:

Medium

Internal Clearance:

0.0004 inches radial and 0.0008 inches radial

Standard Tolerance Designation:

Abec no.3

Bearing Preload Rating:

11.0 pounds

Material:

Steel outer ring

Style Designator:

92d counterbored outer rings, non-separable, tandem mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
