Bore Diameter:

90.0 millimeters

Overall Outside Diameter:

125.0000 inches

Outer Ring Width:

18.0 millimeters

Inner Ring Width:

22.0 millimeters

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0010 inches radial and 0.0014 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

Retainer silver plated per ams 2412 0.0005-0015 in. Thk

Material:

Steel roller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
