Overall Width:

Between 0.4950 inches and 0.5000 inches

Bore Diameter:

Between 3.9992 inches and 4.0000 inches

Overall Outside Diameter:

Between 4.9992 inches and 5.0000 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Load Direction:

Radial

Bore Shape:

Straight

Internal Clearance:

0.0016 inches radial and 0.0026 inches radial

Special Features:

Ball races offset to ring centers

Material:

Steel outer ring

Style Designator:

40a 4 point ball contact, solid inner and outer rings, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
