Overall Width:

Between 0.8218 inches and 0.8268 inches

Bore Diameter:

Between 1.3778 inches and 1.3780 inches

Overall Outside Diameter:

Between 3.1498 inches and 3.1501 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0018 inches radial and 0.0022 inches radial

Standard Tolerance Designation:

Rbec no.5

Material:

Steel roller

Style Designator:

252a single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
