**Overall Width:**

Between 1.5648 inches and 1.5748 inches

**Bore Diameter:**

Between 1.9683 inches and 1.9685 inches

**Overall Outside Diameter:**

Between 3.5430 inches and 3.5433 inches

**Lubrication Material:**

Oil

**Surface Finish:**

Ground

**Retainer Fabrication Method:**

Machined

**Load Direction:**

Angular

**Internal Fit-up Designation:**

Standard

**Standard Tolerance Designation:**

Abec no.5

**Special Features:**

Four slots equally spaced on face, split inner ring, heat stabilized

**Material:**

Steel outer ring

**Style Designator:**

92d counterbored outer rings, non-separable, tandem mounting

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A044a0
