Overall Width:

Between 1.5648 inches and 1.5748 inches

Bore Diameter:

Between 1.9683 inches and 1.9685 inches

Overall Outside Diameter:

Between 3.5430 inches and 3.5433 inches

Lubrication Material:

Oil

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Angular

Internal Fit-up Designation:

Standard

Standard Tolerance Designation:

Abec no.5

Special Features:

Four slots equally spaced on face, split inner ring, heat stabilized

Material:

Steel outer ring

Style Designator:

92d counterbored outer rings, non-separable, tandem mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
