| Overall Width:                  |
|---------------------------------|
| 15.00 millimeters               |
| Bore Diameter:                  |
| 20.00 millimeters               |
| Overall Outside Diameter:       |
| 52.00 millimeters               |
| Lubrication Material:           |
| Grease                          |
| Surface Finish:                 |
| Ground                          |
| Retainer Fabrication Method:    |
| Pressed                         |
| Load Direction:                 |
| Radial                          |
| Bore Shape:                     |
| Straight                        |
| Internal Fit-up Designation:    |
| Standard                        |
| Standard Tolerance Designation: |
| Abec no.3                       |
| Material:                       |
| Steel shield                    |
| Shelf Life:                     |
| N/a                             |
| Unit Of Measure:                |
|                                 |
| Demilitarization:               |
| No                              |
| Fiig:                           |
| A044a0                          |
|                                 |
|                                 |
