Overall Width: 17.00 millimeters **Bore Diameter:** 35.00 millimeters **Overall Outside Diameter:** 72.00 millimeters Surface Finish: Ground **Retainer Fabrication Method:** Pressed **Load Direction:** Radial **Bore Shape:** Straight **Internal Clearance:** 0.0090 inches axial and 0.0008 inches radial and 0.0012 inches radial **Standard Tolerance Designation:** Abec no.3 **Special Features:** Stabilized for operation at m 65 degrees to p 300 degrees f Material: Steel comp e52100 outer ring **Material Specification:** 205-040-107, 97499 mfr ref single material response retainer Style Designator: Non-loading groove, non-separable **Test Data Document:** 38443-aqcp-2 specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 38443-ais-84a specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 38443-aqcp-9a specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 21335-aps-33a specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 21335-aps-36a specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.).
