Overall Width:

Between 0.9510 inches and 0.9530 inches

Bore Diameter:

Between 1.4948 inches and 1.4950 inches

Overall Outside Diameter:

Between 3.3997 inches and 3.4000 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0016 inches radial and 0.0024 inches radial

Standard Tolerance Designation:

Rbec no.5

Material:

Steel roller

Material Specification:

Pwa-s-6415, fscm 77445 mfr ref single material response retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
