Overall Width:

Between 0.3075 inches and 0.3125 inches

Bore Diameter:

Between 8.9988 inches and 9.0000 inches

Overall Outside Diameter:

Between 9.6238 inches and 9.6250 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Radial

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Standard Tolerance Designation:

Abec no.1

Material:

Steel retainer

Material Specification:

Sae 1010 to 1020 assn standard single material response retainer

Style Designator:

40a 4 point ball contact, solid inner and outer rings, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
