Bore Diameter:

Between 3.4375 inches and 3.4395 inches

Cone Corner Radius:

0.0300 inches

Cone Width:

5.0000 inches

Retainer Fabrication Method:

Stamped

Standard Tolerance Designation:

Afbma class 4

Special Features:

Two holes 0.5150 in. Diameter min 0.5350 in. Diameter maximum through cone 120 degrees apart each end 0.4370 in. From end of cone, 30 degree chamfer 0.0500 in. Long on top of cone

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
