Overall Width:

Between 0.5856 inches and 0.5906 inches

Bore Diameter:

Between 0.9841 inches and 0.9843 inches

Overall Outside Diameter:

Between 2.0469 inches and 2.0472 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0014 inches radial and 0.0018 inches radial

Material:

Steel comp 5120h roller

Material Specification:

Ams 4616 assn standard single material response separator

Style Designator:

252a single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
