Overall Width:

Between 0.9950 inches and 1.0000 inches

Bore Diameter:

Between 8.9988 inches and 9.0000 inches

Overall Outside Diameter:

Between 10.9988 inches and 11.0000 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Radial

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Material:

Steel comp e52100 outer ring

Material Specification:

66 federal standard single material response outer ring

Style Designator:

40a 4 point ball contact, solid inner and outer rings, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
