Overall Width:

Between 0.4674 inches and 0.4724 inches

Bore Diameter:

Between 0.9854 inches and 0.9860 inches

Overall Outside Diameter:

Between 1.8502 inches and 1.8504 inches

Surface Finish:

Unground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0480 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

Retainer silver plated

Material:

Steel comp e52100 roller

Precious Material And Location:

Cage silver

Precious Material:

Silver

Style Designator:

252a single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
