Thread Direction:

Left-hand

Shank Diameter:

12.0 millimeters

Shank Style:

Internally threaded

Overall Length:

71.0 millimeters

Bore Diameter:

12.0 millimeters

Lubrication Material:

Grease

Shank Thread Length:

28.0 millimeters

Outer Ring Width:

8.0 millimeters

Inner Ring Width:

16.0 millimeters

Length From Bore Center To Shank End:

16.0 millimeters

Alignment Type:

Self-aligning

Self-alignment Location:

Internal

Thread Size:

16.000 inches

Thread Pitch In Millimeters:

13.0

Special Features:

Basic load rating^dynamic 1295 kp, static 2300 kp; tilt angle 12 deg; wgt.0.055 kg

Material:

Steel

Surface Treatment:

Chromium

Style Designator:

Single row, ball

Thread Series Designator:

Iso m

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
