Overall Height:

Between 0.6100 inches and 0.6150 inches

Overall Outside Diameter:

Between 2.0820 inches and 2.0870 inches

End Application:

Actuator Igm-30

Bore Smallest Diameter:

1.1811 inches

Largest Bore Diameter:

1.1890 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Thrust Directional Capability Designation:

Single

Material:

Stainless steel retainer

Style Designator:

Flat race surface, in line ball retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
