Overall Width:

Between 0.5462 inches and 0.5512 inches

Bore Diameter:

Between 0.7872 inches and 0.7874 inches

Overall Outside Diameter:

Between 1.8501 inches and 1.8504 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0009 inches radial and 0.0016 inches radial

Standard Tolerance Designation:

Rbec no.5

Material:

Steel comp e52100 roller

Style Designator:

252a single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
