Rolling Element Diameter:

0.1250 inches

Standard Tolerance Designation:

Afbma standard tolerance for balls, grade 5

Special Features:

Metallic hardness for aisi 440b to be 55.0 rockwell c min and 62.0 rockwell c max

Material:

Steel comp 440c

Material Specification:

66 federal standard single material response or aisi assn standard single material response

Style Designator:

Ball

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
