Overall Width:

Between 0.9005 inches and 0.9055 inches

Bore Diameter:

Between 2.5588 inches and 2.5591 inches

Overall Outside Diameter:

Between 4.7241 inches and 4.7244 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0032 inches radial and 0.0042 inches radial

Standard Tolerance Designation:

Abec no.5

Material:

Steel comp 8620 retainer or steel comp e52100 retainer

Style Designator:

250a single row, non-locating, two lip inner ring, cylindrical outer ring with two roller retainment rings on outer, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
