Overall Width:

Between 1.3730 inches and 1.3780 inches

Bore Diameter:

Between 2.7551 inches and 2.7561 inches

Overall Outside Diameter:

Between 5.9044 inches and 5.9058 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Load Direction:

Angular

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Internal Fit-up Contact Angular Direction:

Inward convergent

Contact Angle:

40.0 degrees

Material:

Steel

Style Designator:

90a universal ground faces, counterbored outer ring, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
