Overall Width:

Between 0.6643 inches and 0.6743 inches

Bore Diameter:

Between 1.3775 inches and 1.3785 inches

Overall Outside Diameter:

Between 2.8341 inches and 2.8351 inches

Surface Finish:

Ground

Load Direction:

Radial

Bore Shape:

Straight

Criticality Code Justification:

Zzzy

Standard Tolerance Designation:

Abec no.1

Material:

Steel

Style Designator:

Non-loading groove, non-separable

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A044a0
