End Application:

165000-762-9783 csd

Rolling Element Diameter:

0.6250 inches

Standard Tolerance Designation:

Afbma standard tolerance for balls, grade 10

Special Features:

Balls are assembled in sets of 11 with tolerance within 0.00002 per set

Material:

Steel

Material Specification:

Aisi 440b or 440c in accordance with federal standard no. 66, grade 10 assn standard single material response

Style Designator:

Ball

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
