Overall Width:

Between 0.9950 inches and 1.0000 inches

Bore Diameter:

Between 1.6885 inches and 1.6895 inches

Overall Outside Diameter:

Between 2.2494 inches and 2.2500 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Alignment Type:

Rigid

Standard Tolerance Designation:

Afbma standard tolerance for industrial needle bearings

Material:

Steel

Style Designator:

Non-separable, with roller retainer, hardened and ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
