Needle Roller Bearing - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3110-01-184-5435

Overall Width:
Between 0.9950 inches and 1.0000 inches
Bore Diameter:
Between 1.6885 inches and 1.6895 inches
Overall Outside Diameter:
Between 2.2494 inches and 2.2500 inches
Surface Finish:
Ground
Retainer Fabrication Method:
Machined
Alignment Type:
Rigid
Standard Tolerance Designation:
Afbma standard tolerance for industrial needle bearings
Material:
Steel
Style Designator:
Non-separable, with roller retainer, hardened and ground
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A044a0
