Overall Width:

Between 0.9420 inches and 0.9440 inches

Bore Diameter:

Between 0.9841 inches and 0.9843 inches

Overall Outside Diameter:

Between 1.8502 inches and 1.8504 inches

Surface Finish:

Ground

Load Direction:

Radial

Internal Clearance:

0.0026 inches radial and 0.0030 inches radial

Material:

Steel

Material Specification:

Ams6491 assn standard single material response outer ring

Style Designator:

92a non-loading groove, non-separable, tandem mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
