Overall Width:

Between 1.2398 inches and 1.2598 inches

Bore Diameter:

Between 3.1493 inches and 3.1496 inches

Overall Outside Diameter:

Between 4.3304 inches and 4.3307 inches

Surface Finish:

Ground

Load Direction:

Radial

Standard Tolerance Designation:

Abec no.5

Material:

Steel comp m50 ball

Material Specification:

Ams6490 assn standard single material response ball

Style Designator:

90a universal ground faces, counterbored outer ring, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
