Overall Width:

Between 1.6150 inches and 1.6250 inches

Bore Diameter:

Between 2.2457 inches and 2.2465 inches

Overall Outside Diameter:

Between 2.8050 inches and 2.8250 inches

Surface Finish:

Ground

Features Provided:

Lubrication groove

Special Features:

Inside diameter taper 0.0002 in. Max

Material:

Steel separator slug

Material Specification:

Jdm a25b, cage 75160 mfr ref single material response separator slug

Style Designator:

Solid outer race, journal and needle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
