Overall Width:

Between 0.4275 inches and 0.4375 inches

Bore Diameter:

Between 0.3120 inches and 0.3125 inches

Overall Outside Diameter:

Between 0.4995 inches and 0.5005 inches

Surface Finish:

Ground

Alignment Type:

Rigid

Standard Tolerance Designation:

Afbma standard tolerance for industrial needle bearings

Material:

Steel shell

Surface Treatment:

Oxide shell

Style Designator:

Non-separable, open end, drawn shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
