Overall Height:

Between 3.7126 inches and 3.7417 inches

Bore Diameter:

Between 10.2346 inches and 10.2362 inches

Overall Outside Diameter:

Between 16.5354 inches and 16.5537 inches

End Application:

Main propulsion shaft bearing and seal assembly p/n cgd9-397-4302-1 onboard 180 ft wlb and wmec coast guard vessels

Surface Finish:

Ground

Alignment Type:

Self-aligning

Thrust Directional Capability Designation:

Single

Self-alignment Location:

Internal

Standard Tolerance Designation:

Afbma standard tolerance for thrust bearings

Unpackaged Unit Weight:

108.0 pounds

Material:

Steel roller

Style Designator:

Spherical rollers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
