Overall Width:

Between 0.8611 inches and 0.8661 inches

Bore Diameter:

Between 3.1492 inches and 3.1496 inches

Overall Outside Diameter:

Between 4.9208 inches and 4.9213 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Standard Tolerance Designation:

Rbec no.5

Material:

Steel roller

Material Specification:

Astm b 584 assn standard single material response cage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
