Rolling Element Diameter:

0.0620 inches

Special Features:

Hardness shall be rb 54 to 72 with readings taken on parallel flats, per astm e 18

Material:

Aluminum alloy 2017

Material Specification:

Qq-a-225/5 federal specification single material response

Style Designator:

Ball

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
