Rolling Element Diameter:
0.0620 inches
Special Features:
Hardness shall be rb 54 to 72 with readings taken on parallel flats, per astm e 18
Material:
Aluminum alloy 2017
Material Specification:
Qq-a-225/5 federal specification single material response
Style Designator:
Ball
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A044a0
