End Application:

Tg2

Retainer Fabrication Method:

Machined

Load Direction:

Angular

Product Name:

Mechanical flange bearing

Special Features:

Flange bearing; 0.62inch id x 0.750 od x 0.750 lg; oilite bronze; 1.00 od flange x 0.09 thick

Material:

Copper alloy and tin alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
