Overall Width:

Between 0.7824 inches and 0.7874 inches

Bore Diameter:

Between 4.1334 inches and 4.1339 inches

Overall Outside Diameter:

Between 5.7053 inches and 5.7059 inches

End Application:

Ch-47d cargo hel

Load Direction:

Radial

Material:

Steel comp m50

Material Specification:

Ams6491 (m-50 steel) mfr ref single material response

Surface Treatment:

Silver

Style Designator:

40a 4 point ball contact, solid inner and outer rings, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
