Overall Width:

Between 1.0575 inches and 1.0625 inches

Bore Diameter:

Between 1.1807 inches and 1.1811 inches

Overall Outside Diameter:

Between 2.4404 inches and 2.4409 inches

End Application:

2350-01-081-8138

Surface Finish:

Ground

Seal Quantity:

2

Load Direction:

Angular

Bore Shape:

Straight

Special Features:

Bearing is an abec 1 with 2 seals

Material:

Steel comp e52100

Style Designator:

28a non-loading groove, non-separable

Supplementary Features:

Material: cage - steel, seals - flouro carbon rubber (viton), grease - mobile 28; load radial: radial load of 6, 660 lb based on inner ring rotation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
