**Overall Width:**

Between 1.0575 inches and 1.0625 inches

**Bore Diameter:**

Between 1.1807 inches and 1.1811 inches

**Overall Outside Diameter:**

Between 2.4404 inches and 2.4409 inches

**End Application:**

2350-01-081-8138

**Surface Finish:**

Ground

**Seal Quantity:**

2

**Load Direction:**

Angular

**Bore Shape:**

Straight

**Special Features:**

Bearing is an abec 1 with 2 seals

**Material:**

Steel comp e52100

**Style Designator:**

28a non-loading groove, non-separable

**Supplementary Features:**

Material: cage - steel, seals - flouro carbon rubber (viton), grease - mobile 28; load radial: radial load of 6, 660 lb based on inner ring rotation

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A044a0
