**Bore Diameter:**

Between 0.6691 inches and 0.6693 inches

**Overall Outside Diameter:**

Between 1.3699 inches and 1.3704 inches

**End Application:**

Ama (airframe mounted accessory drive) ; f-18 aircraft

**Inner Ring Width:**

Between 0.4692 inches and 0.4724 inches

**Criticality Code Justification:**

Agav

**Product Name:**

Inner roller bearing, matched pair

**Special Features:**

This is a matched pair of bearings

**Material:**

Steel roller

**Material Specification:**

Ams-6444 assn standard single material response roller

**Style Designator:**

262a single row, two lip inner ring, no outer ring, roller retainment rings, non-separable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A044a0
