End Application:

Propellor system, ai; np2000 propellor

Rolling Element Diameter:

0.6875 inches

Special Features:

Heat treat per mil-h-6875; hardness: 60-65rc

Material:

Chromium alloy

Material Specification:

Sae 6440 assn standard single material response

Style Designator:

Ball

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
