End Application:

1025-01-445-0991

Special Features:

6material hardened steel, without inner ring; function to provide low friction drive between a shaft of 175 diameter and housing of 200 diameter, mass 1.7kg, basic load rate dynamic 160kn static 435kn, limiting speed 2600rpm reference speed 1600rpm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
