Lubrication Material:

Grease

End Application:

Motor gear assembly p/n 99311100-01 c-130 aircraft

Shield Quantity:

2

Product Name:

Ball bearing, unflanged full complement

Special Features:

Bore diameter 0.250; od 0.625; length 0.196; shields are 1/3 to 1/2 filled with grease; t.O. 5a15-9-12-3 figure 8 index 9

Lubrication Material Specification:

Mil-pref-83261 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0

Mil-std (military Standard):

spec.
