Overall Width:

17.0 millimeters

Outer Ring Outside Diameter:

72.0 millimeters

Product Name:

Radial ball bearing

Special Features:

Type: shielded; bore dia: 35.0 mm; dynamic load capacity: 5750 lb; static load capacity: 3450 lb; temp. Range: -20 degree fahrenheit to 250 degree fahrenheit

Material:

Steel cage and steel cage

Style Designator:

Conveyor roll bearing w/hex shaped bore

Supplementary Features:

Sku: 37061; prelubricated and permanently sealed for a lifetime of quiet, maintenance-free operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
