Bore Diameter:

55.0 millimeters

Thrust Directional Capability Designation:

Double

Product Name:

Thrust bearing

Special Features:

Needle roller bearings, dynamic thrust load capacity 8500 lbs. Maximum rpm 4300. Temp range neg 40 to positive 248 f. Does not include washers. O/d 78 mm rolling element diameter 3.0 mm.

Material:

Steel roller

Style Designator:

Retainer and rollers, thrust

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
