Overall Height:

Between 0.8075 inches and 0.8130 inches

Overall Outside Diameter:

Between 0.3288 inches and 0.3588 inches

End Application:

Update

Largest Bore Diameter:

Between 1.997 inches and 2.002 inches

Retainer Fabrication Method:

Machined

Thrust Directional Capability Designation:

Single

Product Name:

One-piece thrust ball bearing

Special Features:

Bearing has hole in band for lubrication purposes

Material:

Steel

Style Designator:

Grooved race surface, banded od

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
