Overall Length:

2.9280 inches

Bore Center To Shank End Distance:

2.6000 inches

Outer Member Width:

Between 0.4450 inches and 0.4500 inches

Material:

Titanium alloy uns r56400

Material Specification:

Ams 4928 assn standard single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

P.S. 13101, ty2, cl 3, fscm 76301 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A045a0
