Overall Length:

5.3880 inches

Bore Center To Shank End Distance:

5.0600 inches

Outer Member Width:

Between 0.6200 inches and 0.6250 inches

Material:

Titanium alloy uns r56400

Material Specification:

Ams 4928 assn standard single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

P.S. 13101, type 2, cl 3, fscm 76301 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A045a0
