Casehardening Indicator:

Not casehardened

Outside Diameter:

Between 0.349 inches and 0.351 inches

Metallic Hardness Rating:

48.0 rockwell c and 53.0 rockwell c

Face Width:

Between 0.149 inches and 0.151 inches

Bore Inside Diameter:

Between 0.1258 inches and 0.1263 inches

Material:

Steel, ams5616

Material:

Steel, ams5616

Style Designator:

Plain

Surface Treatment:

Immunized

Fsc Application Data:

Engine fuel system aircraft, turbo-prop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T267-k
